

# Automatic Spray Gun ASF400

*Mass-production spray guns for use with automatic coating equipment, reciprocators, coating robots, etc. (large automatic spray guns)*

## FEATURES

- Durable, the spray gun material uses durable material, and the nozzle uses wear-resistant material, which increases the life of the spray gun.
- The design and adjustment valve controls the paint output and spray width, and the operation can be simple to obtain the best spraying condition.
- Efficient maintenance and maintenance, reduce the number of parts, and simplify assembly; Reduced turbulence, less surface residue and easier maintenance.

## SPECIFICATIONS

Spray Distance 250mm

	1.4	1.7
Fluid Nozzle Diameter (ømm)	1.4	1.7
Atomizing air pressure (Mpa)	0.29	0.29
Air consumption (l/min)	320	340
Fluid output (ml/min)	240	320
Pattern width (mm)	330	330
Mass (g)	900	900

### Application

precious coating for 3C industry \ coating for plastic industry, wooden furniture industry, car and motorcycle industries as well as metal industry .

*An air-operated auto spray gun under ergonomic and friendly design  
High efficient spray gun with low pressure, low air volume and superfine atomizing*

*Gold River*
