

Airmix Manual Spray Gun

Model:MAC2010

Features

- **High process reliability**

The gun body is integral that is highly reliable, even under the roughest of production conditions.

- **Perfect coating results**

The reduced material pressure creates an extremely soft spraying pattern.

- **Ultralight**

The MAC 2010 is impressively low-weight as well at only 450g.

TECHNICAL DATA

Max. material pressure	160bar , 2321psi
Material connection inlet	1/4"pf
Material temperature	55°C , 131.0°F
Air inlet pressure	0,0-0,8 MPa, 0,0-8,0 bar, 0-116psi
Air inlet connection	1/4"pf
Operating temperature	5-40°C , 41.0-104.0°F
Weight	0.45kg
Max. sound level	82dB(A)
Length	150 mm , 5.9in
Height	200 mm , 7.8in

Designing a gun with optimal ergonomics for a wide range of different users.

The gun is lighter and requires less trigger ,making it even easier to handle and reducing fatigue during operation.
