

20:1 AIR PISTON PUMP

MODEL:PP2050

20:1 air piston pump is very quiet pump design. It can use in high viscosity coatings (up to 9000cps). Also, it is a high efficiency and low environmental requirement's pump. This pump can be applicable in large product shops to supply multiple guns from one fluid supply. It has been used in wood , metals , and plastics industry.

FEATURES:

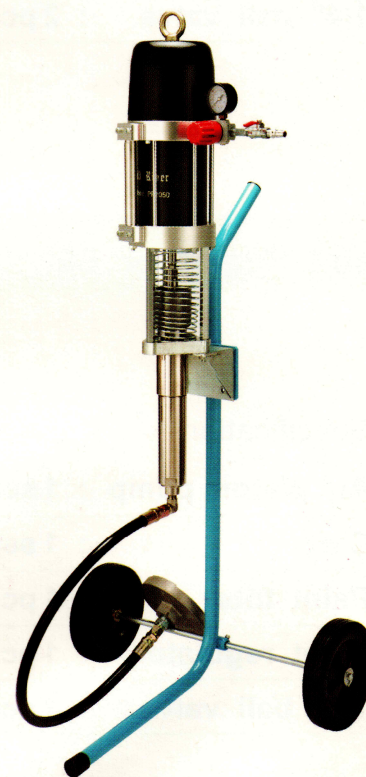

- Stainless steel design.
- Large diameter suction rod and high compression ratio.
- Simple design, reduced number of spare parts.
- Extra air regulator is for air pressure controlling and monitoring easily.

BENEFITS:

- Compatible with water-based materials.
- Can be used with a wide range of materials.
- Easy maintenance.
- One set is use in adjustment the pump actuation pressure. The other set can be use in spray gun

SPECIFICATIONS (30 cycles/min at 4 bar):

Pressure ratio	20:1
Fluid volume per cycle (cm ³)	90
Number of cycles per liter of products	11
Fluid output at 30 cycles/min (l/min)	2.7
Free flow rate (l/min)	5.4
Air consumption (m ³ /h) at 30 cycles/min at 4 bar	20
Maximum air inlet pressure (bar)	6
Maximum fluid pressure (bar)	120
Maximum fluid temperature (° C)	60
Sound level (dBA)	78
Net weight - excluding cart (kgs)	16.8
Cart (kgs)	7
Wetted parts	Stainless steel
Pump dimensions (cm)	115x54x60

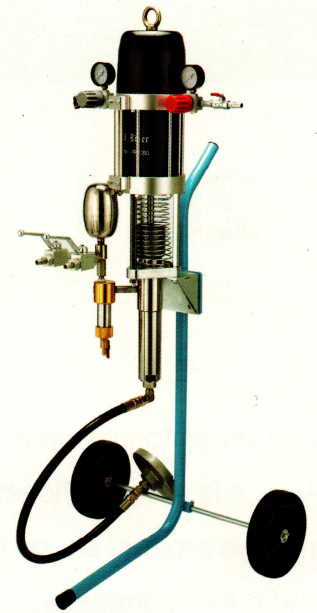

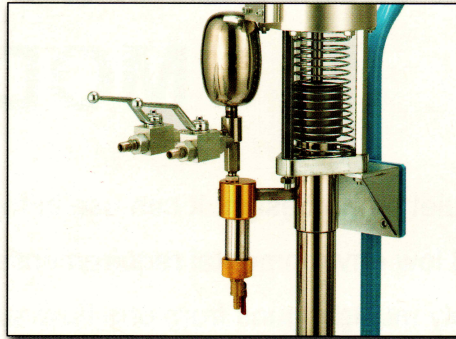

Gold River

Paint Pressure Stabilizing Tank Set :

Specification :

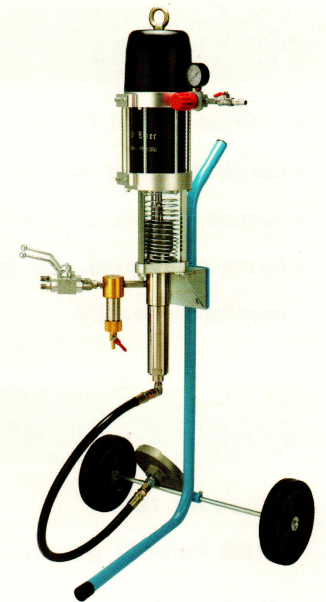

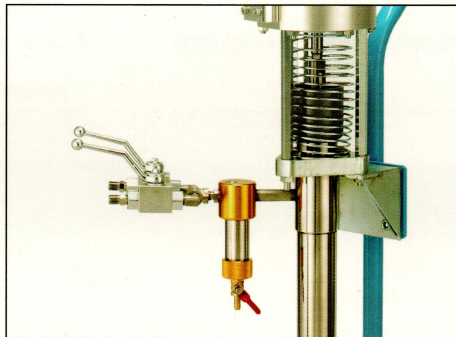

- Air piston pump : 1 set
- Cart : 1 set
- Paint filter : 1 pc
- Paint mini tank : 1 pc
- Check valve : 1 pc
- 1/4" ball valve : 2 pcs

Basic Set :

Specification :

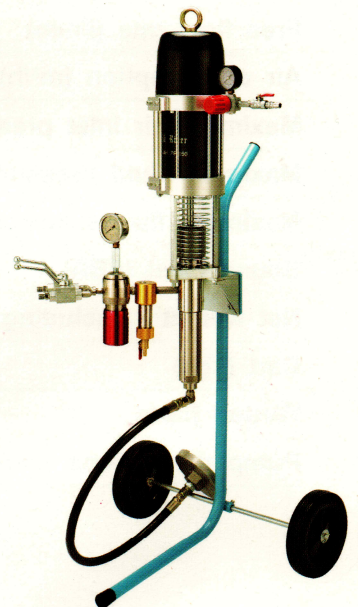

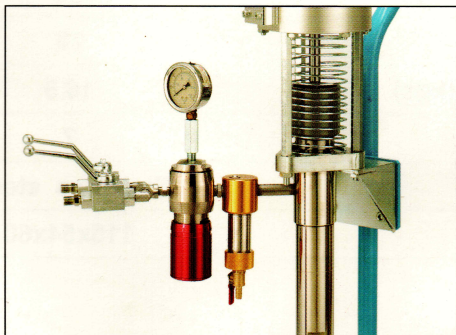

- Air piston pump : 1 set
- Cart : 1 set
- Paint filter : 1 pc
- 1/4" ball valve : 2 pcs

Paint Regulator Set :

Specification :

- Air piston pump : 1 set
- Cart : 1 set
- Paint filter : 1 pc
- Paint regulator : 1 pc
- 1/4" ball valve : 2 pcs
